Various individuals/families/teachers/restaurants

Miscellaneous Information:

We are working with Hear WI to provide see-through masks for the hard of hearing and deaf. We have not yet contributed any masks to this cause.

I have respectfully declined one request from an organization. While their cause is good and honorable, their plan was to suggest a donation to their cause in exchange for a mask. This didn't seem in keeping with the spirit of our group.

When people have insisted on giving our group money for the masks, I let them know the generous spirit in which our masks have been made and donated and suggest that they make a charitable donation to an organization of their choice.

To date, our scrub caps have been donated to Waukesha Memorial ICU (ProHealth) and to their Covid-19 Floor nurses and providers. They have been VERY WELL received!!! First Responders have also requested caps. Lake Area Free Clinic has also asked for more masks and caps.

The need for scrub caps and masks continues. All help is very much appreciated.

Any questions or suggestions, please contact Gina at 262-424-7640
